

TMex 2020 - Translational Medicine explained - Online winter school

Target audience

PhD students in the second half of their PhD, early postdocs and other young scientists involved in biomedical research.

About the course

The TMex course

- Provides a birds eye view of the medicine discovery & development process
- Raises awareness of obstacles and challenges involved
- Introduces the different players (academia, SME, pharma, regulatory) and career options

Date

26 - 30 October 2020, 9:00 – 18:00 CET

Location

Your computer: Each day will have a mix of lectures, activities and self-study time.

You will need a desktop computer or laptop with web cam and stable internet connection

Registration (now open)

First come, first serve¹. There are only 30 seats, so we recommend applying early. The registration will close on August 1st 2020.

Costs

The course fee is 175 Euro.

A special discounted fee of 100€ applies for EATRIS members, VHIR & I3H students.

What our students say²

- “It was a difficult decision to leave the lab for 5 days but it is worth it” (Kevin Ferreira)
- “Very interactive course with a non-traditional approach. The course reflects the reality of translational medicine: getting a lot of people with different backgrounds to work together as a team” (Miriam Ayuso)
- “This course taught me things I didn’t know would even exist. The course inspired me that the PhD is more than just gaining scientific knowledge, but also to use the time to work on my personality” (Inga Hensel)

Confirmed speakers

Rosan Vegter, Academia Engagement Officer, European Medicines Agency, EMA

Bob Harris, Professor Immunotherapy, Karolinska Institute

Maria Borell, Senior Investigator, Patient Representative at EURORDIS

Keith Williams, Director, KW Drug Developments

Anton Ussi, Director, EATRIS
