

ERN*-Workshop: GATA2-related Myelodysplastic Syndromes

Athens, Greece - September 30th and October 1st 2021

Workshop Program:

Day 1

12.30 – 13.30 **Registration**

13.30 – 13.40 **Welcome**

13.40 – 15.40 **Combined GATA2/EWOG Symposium**

Invited lecture: Marcin Wlodarski (St. Jude / Freiburg):

GATA2 Deficiency – a decade of discoveries

Invited lecture: Elaine Dzierzak (University of Edinburgh)

Gata2 dynamics and levels in hematopoietic stem cell development

Keynote lecture: Emery H. Bresnick (University of Wisconsin)

GATA2 Variant Mechanisms

16.00 – 16.30 **Coffee Break**

16.30 – 18.00 **GATA2 – EWOG networking**

Day 2

10.00 – 12.00 **Combined (GATA2/EWOG) - GATA2 Workshop**

Invited lecture: Shai Izraeli (Tel Aviv University):

Cellular and metabolic characteristics of preleukemic hematopoietic progenitors with GATA2 mutations

Invited lecture: Emma de Pater (ERASMUS MC/Rotterdam)

GATA2 in lineage differentiation and stem cell fitness

12.00 – 12.30 **Lunch Break**

13.00 – 14.30 **Round table GATA2 Deficiency Challenges**

14.30 – 15.00 **Final Conclusion and Evaluation of the Workshop**
